1. GENERAL

a. Incentives are a tool where other less costly methods have proven inadequate in supporting unit and skill staffing requirements. This policy, in conjunction with Army Regulation (AR) 601-210, AR 621-202 and National Guard Regulation (NGR) 600-7, prescribes eligibility criteria, procedures, and standards for administering the annual ARNG SRIP Policy for FY24. This policy supersedes all previous SRIP policies, guidance, instructions, and Education Incentive Operation Messages (EIOMs), unless otherwise stated.

b. Reenlistments and extensions will be performed in accordance with (IAW) NGR 600-200, Chapter 8, Reenlistment/Extension policy, unless specified within the eligibility criteria of each Reenlistment/Extension Bonus (REB) incentive type. Incentives are subject to suspension at any time and any updates or changes to this policy will be published in an EIOM. Although the ARNG attempts to list all eligibility requirements within the SRIP policy, additional requirements are detailed in NGR 600-7. Direct any discrepancies to the Operations Division, Incentives Oversight Branch (ARNG-HRM-I) for disposition or additional instructions. Units, ARNG Military Entrance Processing Station (MEPS) Guidance Counselors, and Reserve Component Career Counselors are responsible for ensuring potential recipients meet all eligibility criteria prior to offering any incentive which would create a fiscal obligation to the ARNG. The authorized forms of signature are the common access card (CAC), electronic signature pad performed at MEPS and or a wet signature during the manual addendum process from AC to RC. This policy, all active EIOMs, and previous policies are posted in the GKN Portal here: [ARNG G1 Operations Division - Documents - All Documents \(sharepoint-mil.us\)](#).

2. APPLICABILITY

a. The policy applies to individuals entering or currently serving in an active status within the ARNG Selected Reserve. This program, however, does not apply to Active Guard Reserve (AGR) (Exception 79T AGR) or Dual Status Military Technicians (DSMTs) per AR 601-210.

b. All individuals that may qualify for an incentive and accessing into the ARNG will process through the Recruiting and MEPS systems applications, meet all eligibility requirements for each incentive and contain all signatures and dates the same. (Exceptions: Soldiers transitioning from: Active Duty (AD) to the ARNG, and current ARNG Soldiers serving in an active status do not process through MEPS system applications. The Marine to ARNG shall process through REQUEST for vacancy reservations).

c. Current ARNG Service members assigned to Modified Table of Organization and Equipment (MTOE) units, Medical Table of Distribution and Allowances (TDA) units, and specialty units (Special Forces and Cyber) will be processed IAW the eligibility

ENCLOSURE 3: PROCEDURES

requirements addressed in Enclosure 4 for each specific incentive. Applicants enlisting into the ARNG must also access into the same authorized units as current service members noted above.

d. An officer or enlisted member is not eligible for an incentive if the individual was previously discharged or released from any period of active duty or military service based on a determination of misconduct, substandard duty performance (includes failure of Height (HT)/Weight (WT) and Army Physical Fitness Test (APFT)/Army Combat Fitness Test (ACFT), or moral or professional dereliction.

e. ARNG Soldiers who were fully eligible for extension at the time of separation and within 365 days of the last ARNG discharge date are not authorized incentives.

f. Individuals enlisting under the 09C Program managed by the ARNG Strength Maintenance Division (ARNG-HRR) may qualify for an incentive after completion of English as a Second Language training, achieving the required Armed Services Vocational Aptitude Battery (ASVAB) score and meeting all other eligibility requirements specific to the incentive. Note: Off Peak Bonus not authorized.

g. Soldiers categorized as 09M or on AD under enlistment Option 26 are not authorized incentives.

3. REQUIREMENTS

a. System Access: One of the management tools critical for administering the ARNG SRIP is the Guard Incentive Management System (GIMS). Each GIMS user must request either privileged or non-privileged level access. All users of GIMS are required to complete initial Information Assurance (IA) awareness orientation training as a condition of access and thereafter must complete annual IA refresher awareness training. Privileged users who are not appropriately certified within 12 months of assignment to a position, or who fail to maintain their certification status, shall be reduced to non-privileged level access. It is also recommended that State Incentive Managers obtain "read-only" access in Defense Joint Military Pay System (DJMS) for incentive establishment and pay monitoring.

b. Privileged Level Training Requirements: The training courses below meet the requirements for privileged level access to GIMS. While the Comptrollers Accreditation and Fiscal Law (FL) course is highly recommended, the FL certificates that are Judge Advocate General (JAG), Comptroller, or United States Property and Fiscal Office (USPFO) led will be accepted for meeting the revalidation requirement. The Comptrollers Accreditation and FL course certificate is only valid for three years. If it has been three years since the user last completed the FL course, a new one must be awarded. Failure to have a valid certificate will result in the user being reduced to non-privileged level access.

Additionally, the individual must complete requirement 3.b.(3) within 12 months of the date of privileged level access approval or his/her access will be reduced to non-privileged.

d. ARNG recommends each State send one State IM (Primary or Alternate) or Education Services Officer (ESO) to the Advanced IM Course annually. Personnel must have completed the IM Resident Course and be in position at least six months before attending the Advanced IM course. Personnel that are retiring or moving to another position outside the IM office should send another IM to the Advanced IM Course within 180 days of notice of reassignment. State Incentive offices who fail to revalidate annually may their GIMS access rights suspended. For future auditing purposes, each State ESO is responsible for maintaining copies of all training certificates for each person with privileged level access for his/her State. State Incentive Managers will continue to monitor and coordinate with ARNG HRM-I for published training dates. ARNG HRM-I will not audit training requirements when dates are not available in the FY.

e. GIMS Annual Recertification requires State IM's/ESOs to provide the IM resident course completion certificate (if submitting an initial request), DD Form 2875, and FL certificate as listed in 3.b. above.

19. CONTRACT TERMINATION AND SETTLEMENT PROCESS

ARNG-HRZ Policy #24-01
ENCLOSURE 4: INCENTIVES

a. Purpose. Provide guidance for the resolution of incentive eligibility issues when bonus contracts not in compliance with law, regulations, or policy. This guidance also provides the process for terminating an incentive contract with or without recoupment.

b. Program Management. The IM is responsible for the SRIP, to include establishing, monitoring, and payment of each incentive within the program. The MGIB-SR Kicker, all Loan Repayment Programs, Federal Tuition Assistance, and AMEDD incentives issues are excluded from this guidance. Guidance for resolving issues in these programs will be provided separately.

c. The settlement process uses four categories to organize violations. The types and definitions of the four categories are:

(1) State Level Authority- Incentive issues caused by incorrect Integrated Personnel and Pays System-Army (IPPS-A) coding, inaccurate orders issuance, and missing documents in iPERMS or GIMS should be corrected at the State level. An ETP is not required for these issues.

(2) The ARNG Level Authority- Incentive issues that are not correctable by the State, and the State elects to submit a Soldier's request for an ETP to the ARNG. The ARNG can make approval determinations when the incentive issue is a violation of only NGR 600-7, or the applicable ARNG Incentive Policy. If the issue violates a higher-level authority's regulation, policy, or statute, the ARNG will follow the applicable resolution path.

(3) The Department of the Army (DA), Office of Secretary of Defense (OSD), or Statutory Authority- Incentive issues relating to law, Department of Defense Instruction (DoDI), Department of Defense (DoD) regulations and policy, and DA policy. The NGB has been delegated limited authority to waive the requirement to recoup funds already paid to the Soldier in some cases involving DA Policy. While an ETP cannot always be approved to waive the requirement to terminate, the denied ETP may provide guidance to the State IM to terminate without recoupment. Only DA and/or OSD have authority to grant relief from termination for issues in this category.

(4) Suspected Fraud, Waste or Abuse- Incentive contracts that demonstrate evidence of improper administration permitting erroneous incentive payments are subject to recoupment by federal statute(s) and/or DoD and Federal Management Regulations (FMR). Any alteration to an incentive addendum will be treated as suspected fraud. All cases will be reported to the NGB Program Manager and thoroughly investigated by the State to determine appropriate legal disposition. Decisions will be reported to the NGB Program Manager.

ARNG-HRZ Policy #24-01
ENCLOSURE 4: INCENTIVES

d. Erroneous Overpayments- Erroneous overpayments are defined as payments made more than the Soldier's contracted payment amount, more than limits established by Law, and/or DoDI/Army Regulations/ALARACTs, or payments that were not legal and proper when made. Erroneous overpayments must be recouped as soon as discovered. There is no ETP process authorized for erroneous overpayments, however, exceptions may apply to the SLRP through the voucher process.

e. Settlement process for State level authority corrections. State SRIP personnel are not authorized to submit an incentive for payment processing until the issues identified in paragraph 17c. (1) are corrected in IPPS-A, iPERMS and GIMS as required.

f. Termination Defined

(1) Termination without Recoupment: Termination without recoupment means the Soldier is entitled to a prorated incentive amount based on the number of months the Soldier served prior to the incentive termination date and no recoupment of funds already paid to the Soldier IAW the contract. (Exception are erroneous or overpayments will be recouped)

(2) Termination with Recoupment: Termination with recoupment means the Soldier is entitled to a prorated incentive amount based on the number of months the Soldier served prior to the incentive termination date. The Soldier may be required to pay funds back to the government, or the Soldier may be entitled to a payment.

(3) Relief from Recoupment: If termination with recoupment is the initial guidance, but the decision-making authority determines that recoupment of funds is contrary to a personnel policy, management objective, or contrary to the best interest of the ARNG, the Soldier will not be required to repay funds already received. The contract will be terminated without recoupment. Note: Erroneous overpayments do not qualify for relief from recoupment.

g. Termination of a bonus contract. Once a bonus contract issue is identified that requires termination, with or without recoupment, the State/Territory will follow the instructions below:

(1) Termination when Soldier fails to complete their IADT:

(a) The IM will initiate termination of the bonus without recoupment in GIMS upon receipt of the discharge orders. The IM will enter comments indicating the reason for termination, select termination without recoupment with the contract start date as the effective date of termination, and ensure all fields in the termination processing screen are correctly completed. The termination must be processed at the State level through
