Benefits Guide

It benefits to serve!

HISTORY

The Kentucky National Guard, one of the oldest military forces in the U.S., traces its origins to 1775 when Kentucky was part of Virginia. Throughout history, Kentucky has cherished the tradition of rendering military duty with zeal when called upon. Kentucky's history teams with incidents of self-sacrifice unsurpassed in daring and achievement. Kentuckians have answered the call to arms in all conflicts our country has faced.

Since its inception, the Kentucky National Guard has not only stood as an alert, fighting force ready to defend Kentucky and the United States against those who would attempt to disrupt our democratic way of life, but this voluntary citizen-Army has also served in times of natural disaster.

The skill and proficiency with which the Guard has served Kentucky further contributes to the fact that it is, and will continue to be, a necessary and indispensable organization for the continuing existence of the Commonwealth.

VISION

The Kentucky National Guard's vision is to be the premier unit-based force of Citizen-Soldiers, maintaining a relevant force structure spanning all warfighting functions serving the Nation.

At home, the Kentucky National Guard fully postures leaders and units to respond to complex catastrophes on the worst day or night in the Commonwealth.

Simultaneously, we deliver a sense of purpose, worth, and well-being to Guardsmen, their families, and employers, thereby connecting to Main Street Kentucky.

Thank you for your service and sacrifice. You are the heart of Team Kentucky, and we are forever grateful for all you do to keep our state safe, strong, and resilient. When Kentucky faces its greatest challenges, the National Guard steps up. Whether responding to natural disasters, supporting communities, or serving overseas, you are always there. Because of that, it's only right that we are here for you in return.

These benefits reflect our deep commitment to honoring you and your families with the support you've earned. Through 100% tuition assistance at in-state schools, we are helping you and your loved ones access higher education and brighter futures. With tax exemptions on Guard pay and military disability retirement income, we're easing financial burdens for those who serve. Our beautiful Kentucky state parks offer discounts for military families and free stays for 100% disabled veterans as a small token of our gratitude.

For those transitioning to civilian careers, programs like the CDL test waiver and veteran-focused agricultural initiatives make it easier to build successful lives and businesses here in Kentucky. These benefits are more than just support; they're a reflection of our respect for the sacrifices you've made. You've given so much to Kentucky, and you deserve to be cared for by the communities you protect. Together, let's keep making the Commonwealth a great place to live, work, and thrive.

Thank you for your service,

Andy Beshear

Governor of Kentucky

“These benefits are more than just support; they’re a reflection of our respect for the sacrifices you’ve made.”

To Our Soldiers, Families, and Retirees,

Your service and dedication to the Kentucky National Guard are what keep our organization strong and resilient. Whether you are serving today, have paved the way as a retiree, or stand beside our Soldiers as family members, each of you plays a crucial role in our mission.

“This guide was created to give you the tools and resources you need to thrive.”

From tuition assistance that helps Soldiers achieve their educational goals, to healthcare options and financial incentives that ease burdens, these benefits are designed to support your well-being and readiness.

Families can also find valuable programs and opportunities that help create cherished memories and strengthen the bonds within our Guard community.

I’ve seen firsthand how these benefits open doors for our Guard members. Soldiers are earning degrees, advancing their careers, and building brighter futures while continuing to serve. The longer you serve in the Guard, the more opportunities and benefits you will have accessed, enhancing both your military career and personal life along the way.

I encourage you to explore these benefits, share this guide with fellow Soldiers and families, and take full advantage of the resources you’ve earned. These benefits reflect our ongoing commitment to care for those who serve and support our mission. You are our greatest asset, and it is our honor to serve you.

Sincerely,

Haldane B. Lamberton

VA Home Loans

Overview

Created by the original G.I. Bill (*Servicemen's Readjustment Act of 1944*), the VA-Guaranteed Home Loan program has helped generations of Veterans, Servicemembers, and their families enjoy the dream of homeownership and the opportunity to retain their homes in times of temporary financial hardship. Should you have any questions about the VA Home Loan benefit or issues with your current home loan, contact us at: **1-877-827-3702**.

What is the VA Home Loan Guaranty?

The VA home loan guaranty is an agreement that VA will reimburse a lender (*such as banks, credit unions, mortgage companies, etc.*) in the event of loss due to foreclosure. This guaranty takes the place of your down payment.

Who is eligible for a VA Home Loan?

Active-duty servicemembers and Veterans with discharges other than *dishonorable*, National Guard and Reserve service members and Veterans with an *honorable* discharge, certain eligible spouses, and other uniformed service personnel may be eligible for VA home loan guaranty benefits. The full listing is available online at: <https://www.va.gov/housing-assistance/home-loans/eligibility/>.

Is there a fee to use the VA Home Loan Guaranty?

Yes, but the funding fee can be waived (*see list below*). To keep the program viable, Congress instituted a program funding fee, which is a percentage of the total loan amount. This user fee varies based whether the loan is a first-time or subsequent (second, third, etc.) use of the benefit. The funding fee may be paid in cash or included in the loan at closing.

*The funding fee can also be paid by the seller, lender, or any other party on your behalf. (*See Chapter 8 of the Lenders Handbook*)

The following individuals **do not** pay the VA funding fee:

- Veterans receiving VA compensation for a service-connected disability.
- Veterans entitled to receive VA compensation for a service-connected disability, but receive retirement pay or active service pay.
- Un-remarried surviving spouses of Veterans who died in active service or from a service-connected disability.
- Service member with a proposed or memorandum rating from VA, **prior** to loan closing, as eligible to receive compensation as a result of a pre-discharge claim.
- Service member on active duty who provides, **on** or **before** the date of loan closing, evidence of having been awarded the Purple Heart.

Is there a limit to the size of a VA-backed mortgage?

There are no loan limits if one has full home loan benefit or full entitlement. If you are a first-time homebuyer or have sold your previous VA-backed home and paid your loan in full, you can enjoy VA-backing on a home loan regardless of home price and without the need for a down payment. Of course, you must be able to afford the home and the property must appraise for at least the purchase price, otherwise you may have to make a small down payment.

How a VA loan compares to a traditional mortgage

	VA Loan	Conventional Mortgage Loan
Down Payment	0% down payment required	Up to 20% or more of the home's selling price
Private Mortgage Insurance (PMI)	No Private Mortgage Insurance is required since the government backs the loan.	Mortgage insurance is typically required for borrowers who finance over 80% of the home's value.
Interest Rates	Generally among the lowest interest rates on the market, regardless of credit score	Interest rates vary based on credit scores; only the highest credit scores get comparable rates
Credit Scores	Individuals do not need high credit scores to qualify for a VA loan	Traditional mortgages require higher credit scores plus a down payment that cannot be borrowed

You can choose from Consumer-Driven and High Deductible plans that offer catastrophic risk protection with higher deductibles, health savings/reimbursable accounts and lower premiums, or Fee-for-Service (FFS) plans, and their Preferred Provider Organizations (PPO), or Health Maintenance Organizations (HMO) if you live (or sometimes if you work) within the area serviced by the plan.

Life Insurance

Federal Employees' Group Life Insurance (FEGLI) :

The Federal Employees' Group Life Insurance (FEGLI) Program Is the largest group life insurance program in the world, covering over 4 million Federal employees and retirees, as well as many of their family members.

Most Title 32 Technicians and Title 5 Employees are eligible for FEGLI coverage. FEGLI provides group term life insurance. As such, it does not build up any cash value or paid-up value. It consists of Basic life insurance coverage and three options. In most cases, if you are a new Federal employee, you are automatically covered by basic life insurance and your payroll office deducts premiums from your paycheck unless you waive the coverage. In addition to the Basic, there are three forms of Optional insurance you can elect. You must have Basic insurance in order to elect any of the options. Unlike Basic, enrollment in Optional insurance is not automatic -- you must take action to elect the options.

The cost of Basic insurance is shared between you and the Government. You pay 2/3 of the total cost and the Government pays 1/3. Your age does not affect the cost of Basic insurance. You pay the full cost of Optional insurance, and the cost depends on your age.

Kentucky Retirement Credit Computed for Military Service

Former Service members and reserve component Service members who are state or local government employees and participate in a Kentucky retirement pension program can purchase service credit for their time they served in the U.S. Armed Forces. For most state or local government employees buying military service credit will increase their pension.

Certain current state or local government employees who are reserve component Service members and take a leave of absence when they are called to federal active duty during a national emergency are eligible for free service credit for their time serving on active duty.

National Guard and U.S. Armed Forces Service members can purchase reserve component service credit at a rate of one month of service credit for every six months served.

The cost to purchase service credit is based on:

Current Rate of Pay / Final Rate of Pay / Final Compensation x Actuarial Factor x Years Purchased*

*Actuarial Factor is an individualized multiplier, based upon a member's age, years of accrued service credit, applicable benefit factor, and eligibility for final compensation.

Who is eligible for Kentucky Retirement Credit Computed for Military Service? All service credit must have been for service in the U.S. Armed Forces for which the employee received an honorable discharge. Employees who receive military retired pay are not eligible to purchase service credit. For more information, please contact the Kentucky Public Pensions Authority.

Regardless of which warrant officer career direction you choose, you'll be on a path to higher rank, increased responsibility, and greater pay and benefits.

In the National Guard, you have two options for attending Warrant Officer Candidate School (WOCS): State and Federal. These options differ in their eligibility criteria, training location, and length of training.

State WOCS: Conducted part-time. State WOCS candidates train one weekend per month for five months, and conduct a 15-day AT to complete their WOCS. These training weekends are conducted at Wendell H. Ford Regional Training Center in Greenville, Kentucky. Classes begin in April and November each year and include an orientation weekend the month prior to start date.

ROTC Scholarship

The high price of tuition doesn't have to stand in the way of a great education. The National Guard provides financial assistance to students who wish to attend college and enlist in the National Guard, with three major scholarships for full-time students: the Guaranteed Reserve Forces Duty Scholarship (GFRD), the Minuteman Scholarship, and the Army National Guard Dedicated Scholarship (ARNG). The purpose of these scholarships is to train and prepare the National Guard's future leaders. Individuals who participate in this program and receive the scholarship will have an 8-year military service obligation after completing their college degree.

To receive one of these scholarships you must be involved in the Simultaneous Membership Program (SMP) with a National Guard unit while attending school and participate in ROTC (Reserve Officers' Training Corps) at your college. Both scholarships are non-revocable. You must stay academically aligned throughout the program. After graduation, you commission as an officer with the National Guard, and your 8-year service obligation begins.

Scholarship Details:

- Scholarships are available for 1-4 years
- Individual commits to commissioning with the National Guard
- Individual receives FULL tuition and fees or \$10,000 Room and Board Stipend
- Annual \$1,200 book stipend
- ROTC Cadet Stipend - \$420/month for 10 months each year
- Earn E-5 drill pay during SMP duties
- GI Bills available to use alongside scholarship (will depend on the individual's current or prior service)
- Current Guard members can utilize State Tuition Assistance alongside scholarship benefits
- If eligible for MGIB-SR, individual may also utilize SMP Kicker - \$350/month

To qualify for an ROTC scholarship benefit, you must:

- Be a U.S. citizen
- Be accepted to a college/university with an ROTC program
- Have a 2.5 cumulative GPA and maintain a 2.0 every semester
- As an incoming freshman, have a minimum 19 ACT or 1000 SAT to qualify for the 4-year Minuteman Scholarship
- Be under 31 years of age for the entire year of commissioning
- Be a full-time student
- Complete the ROTC Basic Course requirements of Basic Combat Training
- Be medically and morally qualified
- 4-year scholarships require a nomination from **TAG (ask your recruiter for more information)**

ROTC Non-Scholarship

Scholarships for ROTC are limited, and there are times when an individual may not apply in time to receive one or may not be a competitive applicant at the time of application. Current National Guard Soldiers can still participate in ROTC and complete their officer training requirements without a scholarship.

These individuals utilize their enlisted education benefits to pay for their education: State Tuition Assistance, Federal Tuition Assistance, and the Montgomery GI Bill Selected Reserve. These individuals will receive the ROTC Cadet Stipend (\$420/month for 10 months) alongside their enlisted benefits.

Non-scholarship cadets can apply for scholarships every following year of college if they are interested.

Non-scholarship cadets participate in the Simultaneous Membership Program (SMP). SMP is a 2-year course where cadets are paired with and mentored by a current National Guard Officer. SMP involves drilling with a National Guard unit one weekend each month and learning from their assigned mentor. Cadets receive E-5 drill pay at these drill weekends, which averages out to about \$408.76/month.

Non-scholarship Cadets can compete for Active-Duty commissions if they do not accept a scholarship.

Blended Retirement System

The Blended Retirement System

Defined

Contribution (TSP)

BRS incorporates a defined contribution retirement savings and investment plan, called the Thrift Savings Plan or TSP, that offers the same types of savings and tax benefits many private corporations offer their employees under 401(k) or similar plans. The TSP is the same defined contribution plan thousands of DoD and federal government civilians take advantage of for their retirement savings.

- **Service Automatic (1%) Contributions.** If you opt into the BRS, your service will begin contributing an amount equal to 1% of your basic pay into your TSP account each month. This does not come out of your pay. It's called a Service Automatic (1%) Contribution and it begins immediately. If you enter service on or after Jan. 1, 2018, you must wait 60 days before the Service Automatic (1%) Contribution starts.
- **Service Matching Contributions.** In addition, if you opt into BRS and elect to contribute a portion of your own pay into your TSP account, your service will match up to an additional 4% of your basic pay. No matter how much you contribute of your own pay, you can only receive a maximum contribution from your service of an amount equal to 5% of your basic pay. If you enter service on or after January 1, 2018, you will begin receiving Service Matching Contributions after completing two years of service. Service members who opt into BRS will begin receiving Service Matching Contributions immediately.
- **Re-enrollment:** If you join the Uniformed Services on or after January 1, 2018, you will be automatically enrolled into the TSP's Lifecycle (L) Fund appropriate for your retirement age at 3% of your basic pay. While you can opt out of this enrollment, you will be automatically re-enrolled each calendar year.
- **Vested.** Being vested means having ownership. To be fully vested in your TSP account means you are entitled to all of the funds in it. Under BRS you are always vested in your own contributions and their earnings. You are also immediately vested in the Service Matching Contributions and their earnings. To become vested in Service Automatic (1%) Contributions, however, you must have completed two years of service. If you've completed two years of service before you opt-in, you're immediately vested in your entire account.

Portability. Once fully vested, your TSP account is portable. You can leave it with the TSP to grow or you can move it to another qualifying government or private-sector retirement account, when you separate or retire from service.

At a Glance

Saving with the New Blended Retirement System

The Fiscal Year 2016 National Defense Authorization Act provides our military force with a modernized retirement plan built for retirement savings. Beginning in 2018, our service members can get **automatic and matching Thrift Savings Plan contributions** as well as mid-career **compensation incentives** in addition to monthly **annuities for life**. All service members under the current system are grandfathered into today's retirement system.

Today's Retirement System:

$$2.5\% \times \text{Years Served} \times \text{Retired Pay Base}$$

after completing 20 years of service

Defined Benefit Basics

The multiplier. The multiplier is the percentage of your retired pay base you receive for each year of service. Under BRS you earn 2 percent per year of service.

The longer you serve the higher the retirement benefit. If you retire at 20 years of service under BRS, you'll receive 40 percent of your highest 36-months* of basic pay as your defined benefit. That percentage increases by 2 percent for each additional year of service. *After retirement, National Guard and Reserve member's longevity for pay purposes continues while waiting for receipt of retirement pay (known as the gray area).

Keeping up with inflation. The defined benefit has an annual cost of living adjustment (COLA). This means your monthly retired pay will keep pace with inflation. The COLA for BRS is determined each year by the National Consumer Price Index for Urban Wage Earners and Clerical Workers.

Calculate your options. Calculate and compare your potential defined benefit using the official DoD BRS Comparison Calculator at:
<http://militarypay.defense.gov/Calculators/BRS>.

For the National Guard and Reserve: As a National Guard or Reserve member, you must have 20 qualifying years of service to be eligible for a non-regular retirement defined benefit at age 60. However, this age may be reduced as low as age 50 with creditable active service performed since the beginning of 2008. To determine a non-regular retirement, National Guard and Reserve members must calculate their equivalent years of active service.

For example:

After determining equivalent years of service, the formula for the defined benefit is the same.

$$\begin{array}{c} \text{Recruitist with} \\ \mathbf{4,860} \\ \text{retirement points} \end{array} \div \begin{array}{c} \text{Calendar icon} \\ \mathbf{360} \end{array} = \mathbf{13.5} \begin{array}{c} \text{Equivalent years} \\ \text{of service} \end{array}$$

The Blended Retirement System Lump Sum Option

The lump sum option is a feature of the Blended Retirement System (BRS), which gives service members choices at retirement. Service members under BRS who qualify for retired pay, may be eligible to elect either a 25 percent or 50 percent discounted portion of their monthly retired pay as a lump sum in exchange for reduced monthly retired pay. Monthly retired pay returns to the full amount when the service member reaches their full Social Security retirement age, which for most is age 67.

Regular Retirement (Typically of the active duty)

Non-regular Retirement (Typically of the National Guard/Reserve)

The decision. The decision to elect a lump sum at retirement is entirely up to you. If you do not choose the lump sum option, you'll receive your full retired pay upon eligibility. If you do opt for a lump sum, you'll need to decide if you want 25 or 50 percent of your future retirement payments at retirement. You may receive one lump sum payment or annual equal payments — one a year for up to four years. Monthly retired pay reverts to the full amount at full Social Security age, which for most is age 67.

The tradeoff. When you take either 25 or 50 percent in a lump sum, your monthly retired paycheck will then be 75 or 50 percent of the full value of your monthly retired pay until you reach full Social Security retirement age.

The cost. The lump sum of 25 or 50 percent is discounted to the present value based on an annual DoD discount rate published in June of each year. Note that a lifetime of equal, non-discounted monthly payments is worth more. For most service members, a guaranteed stream of income for life is likely a better option than a lump sum.

The timing. If choosing the lump sum option, you must notify your human resources servicing office **no less than 90 days before retirement** and for National Guard and Reservists no less than 90 days before receipt of monthly retired pay (which is at age 60, or earlier based on creditable active service).

Other considerations:

Taxes. Lump sum payments are considered earned income. Depending on how much money it is, that **might push you into a higher tax bracket.**

Survivor benefits. Payments for the Survivor Benefit Plan will still be **deducted from your remaining monthly retired pay** should you elect the lump sum.

Disability payments. If you expect to receive a disability rating from the Department of Veterans Affairs, dependent upon your rating, **disability compensation could be offset.**

Non-Regular Retirement

Q: What is the difference between a non-regular retirement and a regular retirement?

A: A non-regular Army retirement is achieved by serving in the Army National Guard or Army Reserve for a minimum of 20 qualifying years of service. A qualifying retirement year is achieved by earning a minimum of 50 points per anniversary year through drill attendance, annual training, military schooling, mobilizations, membership, or additional training. A non-regular Retired Soldier begins receiving retired pay at age 60 after applying for retired pay or sooner if they have creditable service towards reduced age retirement. A Retiree could start drawing Retirement as soon as age 50. For Tricare however, the law is still set for age 60. A regular retirement is a retirement for serving on active duty for a minimum of 20 years of active federal service. The Soldier will receive retired pay immediately upon retiring from the Army. There is no reduced age eligibility and Tricare is immediate.

Q: How is non-regular retired pay calculated?

A: Non-regular retired pay is calculated based on the total number of qualifying points earned, highest rank achieved, and length of service. To receive an estimate of your non-regular retired pay go to <https://myarmybenefits.us.army.mil/Benefit-Calculators/Retirement>.

Q: What responsibilities do I have as a Gray Area Soldier?

A: A Gray Area Soldier is one who has transferred to the Retired Reserve. An Army National Guard Soldier that has transitioned to the Retired Reserve (Gray Area) should ensure that his or her contact information

such as address, phone number, email address, and change in marital/family status is updated with the Human Resources Command (HRC). Without current information, HRC cannot communicate with you concerning your retirement benefits and entitlements that may change from year to year.

Retirement FAQs

Q: Why should I attend a pre-retirement brief?

A: You must make several decisions before you retire that affect your retirement benefits. The Retirement Section in the G1 holds two Pre-Retirement briefs and two Grey Area Retirement Briefs a year. The Pre-Retirement is geared towards actively serving members with more than 17 years of service, while the Grey Retirement is for those already in the Retired Reserve and preparing for retired pay.

Q: What is the difference between discharge and choosing to enter the Retired Reserve?

A: A Soldier eligible for a non-regular retirement and selects to be discharged over entering the Retired Reserve loses out on the cost of living adjustments from the date he or she is discharged until age 60.

Q: How do I get a reduced age retirement?

A: Reserve Component Soldiers which includes Air and Army National Guard, Navy, Army and Marine Reserve that were mobilized in support of overseas contingency operations after Jan. 28, 2008, will have their retirement dates reduced by three months for each cumulative total of 90 eligible days of active duty that they served. Prior to Oct. 1, 2014, the 90-day periods could not cross fiscal year boundaries. Upon completing mobilization, retain a copy of your qualifying orders and DD Form 214 covering the same qualifying period. Send these documents to the Reserve Retirement Branch at Human Resources Command along with your retirement application nine months prior to your projected retirement date. Ensure you place at the top of your submitted documentation the comment “90-day drop”.

Q: My retirement point statement is incorrect, and I am missing points. How do I get it fixed?

A: If you are an Army National Guard Soldier, contact your Readiness or Training NCO. The G1 Retirement Section has created references on how to get those points corrected.

Q: What happens if I did not make a Reserve Component Survivor Benefit Plan (RCSBP) election when I received my 20 year letter?

A: If your 20 year letter was dated after Jan. 1, 2001, and you did not make an election within 90 days, you were automatically enrolled in RCSBP at the maximum coverage prescribed by law.

Thrift Savings Plan

The TSP is a defined contribution plan, meaning that the retirement income you receive from your TSP account will depend on how much you (and your agency, if you are eligible to receive agency contributions) put into your account during your working years and the earnings accumulated over that time.

MAKE YOUR MONEY WORK FOR YOU!

- Pre-taxed/tax deferred options
- Choose your investment options
- Easy to contribute with automatic deductions
- Take your money with you if you transition, or...
- Keep it in TSP until you retire

If you contribute...	20 years From now	30 years From now	40 years From now

Federal Employees Retirement System

Federal Employees Retirement System (FERS) is a retirement plan for Title 32 technicians and Title 5 employees provides benefits from three different sources: a Basic Benefit Plan, Social Security and the Thrift Savings Plan (TSP). Two of the three parts of FERS (Social Security and the TSP) can go with you to your next job if you leave the Federal Government before retirement. The Basic Benefit and Social Security parts of FERS require you to pay your share each pay period.

Your agency withholds the cost of the Basic Benefit and Social Security from your pay as payroll deductions. Your agency pays its part too. Then,

after you retire, you receive annuity payments each month for the rest of your life.
