Intake Class 028

July 13th

Dual Credit

Welding

Fiber Optics

Dual Credit classes at the Southeast Kentucky Community and Technical College are offered to eligible cadets and award them with the opportunity to gain college credit and, in some courses, a certification. Cadets can take fiber optics or welding courses. We are proud of our partnership with Southeast, as it helps us to provide additional opportunities to make our cadets' lives successful with skills that can be used for future employment and self improvement.

On Top of the World

Knobby Rock, in the Blanton Forest State Nature Preserve

Halloween

Our staff dressed the part for the event plus an abundance of candy.

Career and Education

Recently a contingent of our cadets had the opportunity to tour and visit the Health Expo. The Health Expo is a place where different colleges throughout Kentucky come and give students information about what medical degrees they have at each college such as nursing, surgery tech, sonography, and physical therapy. Students can get information on specific programs or colleges and they can get an idea of what the classes for each program will consist of.

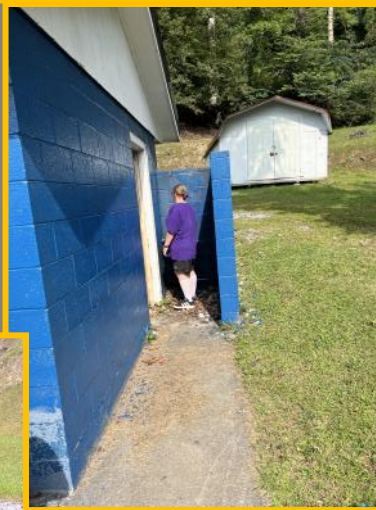

Community

Recently our 3rd Platoon put in some service to their community by painting the press box and concession stand for the Evarts Elementary school. Giving service to our community strengthens the ideals of our "Service to Community" Core Component. In this one of eight core components Cadets gain an understanding of the benefits of volunteering their time and services to assist others in need and to maintain a clean, safe environment in which all citizens can live. This component provides hands on experiences in performing community service opportunities in and around Harlan, KY area.

Class (PFC)**

10 Years Out

Meet Cameron Campbell a graduate from 2015 in Class 006. "My name is Cameron Campbell I attended the Appalachian Challenge Academy Class 006. Before attending the ACA, I was never home, always gone, getting in trouble. Didn't like anyone to tell me what to do. The ACA truly saved me from what could have been a bad road. Securing my education while at the Academy was a huge success for me.

Take all the opportunities this amazing program offers you and I promise you won't regret it.

They are setting you all up for a life long career and success. To-day, I'm happily married for 8 years and father to a beautiful little girl and work a full time job. I deer hunt when in season and go kayaking when I can. I'm proud to have been a cadet and to have attended the Appalachian Challenge Academy."

Cameron is a great example of a young man who took the skills and discipline that the ACA provides and used it to give him and his family the solid footing to succeed long term. We are proud of all of our graduates and truly excited to see how each employ the skills and lessons they found at the Appalachian Challenge Academy.

The Appalachian Challenge Academy is a 22 week, quasi-military program dedicated to advancing foundational development of regional youth. With a focus on 15^{1/2}-18 year olds, it is our goal to provide a diverse skillset through our Eight Core Components that will prepare them to successfully transition into adulthood and create the future they set their sights on. If you would like more information or are interested in joining our community of support, feel free to contact us.
